Horse-specific equipment (water buckets, halters, feed tubs, etc.) should be clearly labeled as belonging to an individual horse and is to be used only by that horse.

Equipo específico de cada caballo (tina agua, cabezado, tina de comida, etc.) debe de ser nombrado individual mente por caballo y ser usado solamente para ese caballo.

Ointments/creams/lotions/liniments should be moved from larger tubs to small individually labeled containers—and not shared between horses.

Antibiótico, cremas, lociones, linimento deben ser removidos de tubos grandes y puestos en tubos pequeños, contenidos individuales no deben de ser compartidos entre caballos.

Multi-dose medications should not be shared between horses.

Dosis multiples no deben de ser usados entre u arios caballos.
