

The Office of Meat and Poultry Services has conducted a survey of inspected slaughter plants located in Virginia. This list provides contact information and services provided by inspected slaughter plants for individuals, co-ops, and food hubs etc. who want to have their animals slaughtered under inspection. Information published in this list was provided by the slaughter plant. This list may not include all slaughter plants in Virginia, only the ones that responded to the survey conducted by OMPS on March 2020. OMPS will make changes to this list as necessary.

This plant is Virginia State inspected. Product produced at this facility may not be sold outside of Virginia.

Species such as buffalo, alpaca, rabbits, ostrich, and emus are exempt from inspection requirements. Regulations may require some type of inspection in order to sell meat from these species. Contact OMPS for more information (804) 786-4569
