## Subpart E - National Poultry Improvement Plan (NPIP) Application

Farm Name :

---

Name:

---

Physical Address:

---

Mailing Address:

---

Phone:

---

Email:

---

Average number of birds on premise:

---

### Guidelines:

Salmonella Pullorum testing is required and must be completed by testing up to 300 birds every 12 months by a Certified Pullorum Tester.

Avian Influenza Clean program is optional, but highly recommended.

If you choose to participate in AI Clean, testing up to 30 birds must be completed every 6 months.

If you choose to no longer participate in the program, or there is a delay in your testing, please notify the NPIP Coordinator.

You are responsible for utilizing 9-3 forms and following state of destination import requirements, when shipping hatching eggs and birds.

Mycoplasma (MG/MS) Clean programs are available, contact the NPIP Coordinator for information.

I have accurately filled out this application and have reviewed the guidelines listed above:
